PUBLIC PORTFOLIO NOTICE

All client names, project names, API examples, identifiers, metrics, and datasets are sanitized or synthetic.

SUMMARY

Quality Assurance Engineer with hands-on experience in manual and automated testing for web and mobile applications. Skilled in Selenium, Playwright, Appium, API contract testing, database verification, performance testing, and Python backend development.

TECHNICAL SKILLS

Automation: Selenium WebDriver, Playwright, Appium, Pytest, Page Object Model
API and security: Postman, OpenAPI, OWASP ZAP, contract and access-control validation
Performance and data: Locust, SQL, MongoDB, DBeaver, deterministic test fixtures
Development: Python, JavaScript, TypeScript, FastAPI, Django, Git

EXPERIENCE

Quality Assurance Engineer | Confidential Software Services Company | June 2025 - Present

- Execute end-to-end web and mobile testing across functional, regression, API, and security scopes.
- Build maintainable browser and mobile automation suites using synthetic test data.
- Validate fictionalized API contracts, status handling, schemas, and authorization boundaries.
- Run local performance simulations and analyze illustrative latency and throughput trends.

Quality Analyst Intern | Confidential Software Services Company | Feb 2025 - May 2025

- Designed test cases, automated repeatable checks, and documented reproducible defects.
- Built learning-focused demo APIs and verified database state using non-production fixtures.

SANITIZED CASE STUDIES

- Demo Commerce Platform: catalog, checkout, account summary, notification, and mobile QA.
- Demo Workflow Platform: order requests, approvals, document checks, and role validation.
- Demo Scheduling Platform: record lifecycle, appointments, forms, and load simulation.
- Demo Media Platform: mobile capture, resilient uploads, asynchronous analysis, and reports.

EDUCATION

Master of Computer Applications (2023)
Bachelor of Computer Applications (2021)

This resume intentionally excludes confidential client details and production-derived data.
